JENNIFER HUDSON

"Now Oscar-winning locks can be yours in under an hour thanks to Racoon's new Afro Wefts," continues Elaine. "The only 100% human hair extensions to be tested and approved by a consultant trichologist, a whole head can be applied in just 45 minutes, meaning you can go from drab to fab in an instant. They're also virtually invisible once applied, meaning there's no danger of spoiling that A-list look."

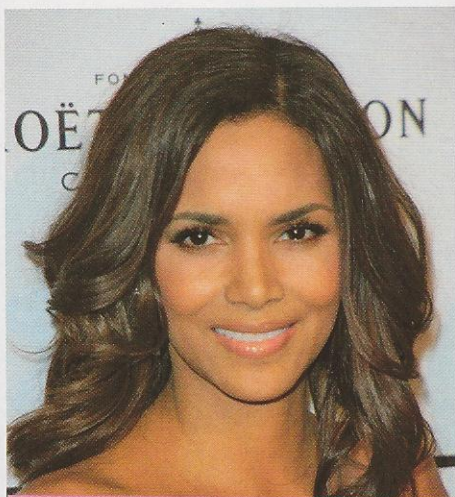

GET THE LOOK

"After washing, drying and straightening Helen's curls I recreated Jennifer's choppy bob using Afro Wefts in black and chocolate," continues Elaine. "I then applied serum to the palm of my hands, rubbing through the mid-lengths and ends for fantastic shine and texture."

MUST-HAVES

Racoon-Xtend Shampoo, £13

Racoon-Xtend Hair Serum, £12

HALLE BERRY

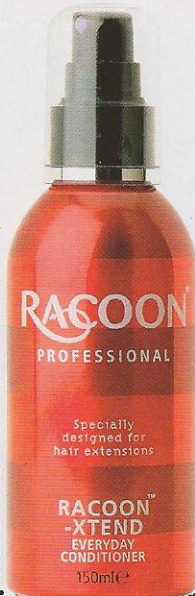

"You don't need a blockbuster-sized income to get Halle's volumised look!" says Elaine. "Racoon's Afro Wefts hold curls brilliantly, meaning you can blowdry your locks into a big and beautiful style with ease. They'll also last for up to four weeks before being washed, prepared and reapplied by your stylist. You can even experiment with colour with different shades each time, without the need for skin tests and with no worry about root regrowth!"

GET THE LOOK

"This time I applied the wefts in warm brown and bronze, blending the colour through to the fringe for a really sexy effect," says Elaine. "I then spritzed over some heat protection spray before curling the hair using tongs, for a look full of movement, texture and shine."

MUST-HAVES

RACCOON-XTEND EVERYDAY CONDITIONER, £10

RACCOON-XTEND THERMAL DEFENSE, £13
